

## PROFILE

I have talked into microphones since 1987, while an on-air talent at a few central NY rock stations. After 25 years in Corporate Life, consulting systems & software, voiceover became my primary focus and full-time career.

Mostly booking in commercial & corporate, I also do characters in videogames, audio dramas, dubbing, animation and more. I'm comfortable working live in-studio with directors in New York City & Philadelphia, or from my personal professional studio in Nazareth, PA.
